

Grade One Field Trips

Our students have the wonderful and exciting opportunity to experience three educational field trips during the year. These are:

THE ZOO FIELD TRIP

The students follow the Bears Education Program. They also have the opportunity to visit the other zoo animal exhibits. Transportation is free but there will be a charge for the program. Zoo passes are not accepted. This field trip will take place in November.

TEACHER'S PET

There will be 2 in school field trips. Professional experienced teachers and specific learning outcomes from our Social Studies and Science units form an interactive experience that makes concepts come alive for the students. These 2 Field trips will take place in October and January.

For all these events I will be in contact with information a few weeks prior to the date. We do welcome parents to supervise a small group of children, but school policy states that you cannot bring along younger siblings. The cost of these 3 field tips will be approximated \$35. If you have financial concerns regarding the fees then please contact Ms. Barrington the school principal. You will require a Criminal Record Check to assist with Field Trips.
