

2 LO MONTHLY NEWSLETTER

CLASSROOM Update

Although December is a shorter month at school we have a lot happening this month. The last week of school the Grade Two classes have some exciting events planned. Stay tuned for a calendar of events coming home soon.

Math

This month we continue to focus on numbers to 100. We are learning to represent numbers in many different ways including drawing, writing it out, tally marks and using base ten blocks. We will begin looking at addition and subtraction in the new year.

French Language Arts

We have been writing our own story books the past couple of weeks. Look for one coming home shortly. For reading, we have begun learning about CAFÉ strategies. The first we have learned is to make a picture in your head while reading to help improve comprehension.

I hope everyone has an enjoyable and relaxing break. Merry Christmas and a Happy New Year!

Mme Gillian Lowell
