

1 LOWELL MONTHLY NEWSLETTER

CLASSROOM UPDATE

May is a very full month. We have swimming at the beginning and some special guests throughout the month as well. Don't forget about MusicFest this month as well! More information can be found on the next page.

FRENCH LANGUAGE ARTS

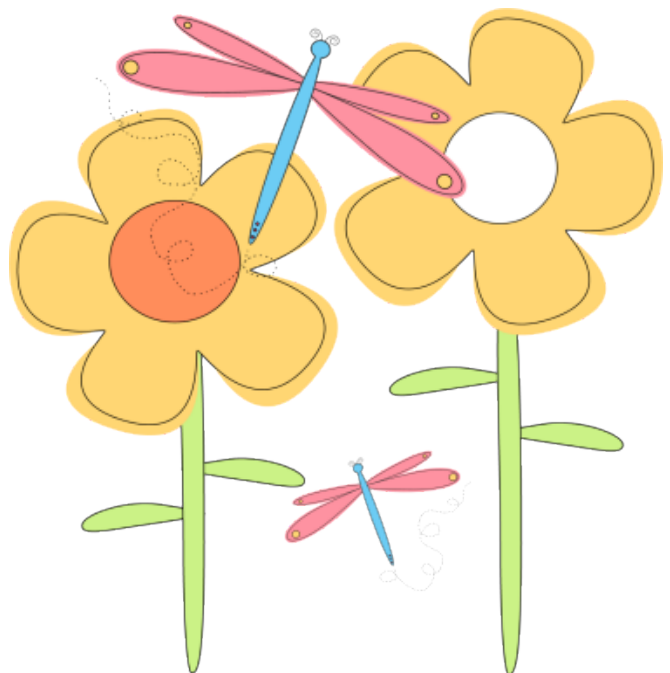

We continue to learn about the Charlotte la chenille reading strategies. We have almost learned them all. Once we know them all look for a handout in your child's home reading bag.

We will begin to write short stories in class. We will focus on writing a beginning, middle and end to our story. As well, we continue to focus on proper punctuation and spelling of our word wall words.

Math

We are finishing up our focus on addition and subtraction. We will begin our unit on 2D shapes and 3D forms this month.

Following that we will take a look at measurement using non-standard units. We will measure using things such as paper clips instead of centimetres.

Science

We will shortly begin learning about the needs of plants and animals. Your child received a tree to take home for Arbor Day. During this unit we will learn how to care for plants and animals.

Social Studies

We are continuing to work on our community project. If you have pictures of your community please. We are hoping to make a book all about our different communities. We are also looking at what goes into planning a community as we create Lowellville.

MusicFest

Our annual MusicFest presentation takes place May 7th at 6:30 pm at the Jubilee. Information went home in regards to buying tickets and costumes for those participating.

You are reminded to always check the school's monthly newsletter and calendar for information and important upcoming events.

Monday	Tuesday	Wednesday	Thursday	Friday
