

Chunking Syllables

Make sure that your child knows that these are not real words. These non-sense words will prevent your child from guessing and making substitutions. These are syllables/chunks of words. Your child must say the letter sounds, slide/track from left to right. Work on 2 letter syllables graduate to three, then to four. With review your child will become efficient in chunking and this skill will be readily applied during reading. Reading from index cards may be beneficial.
