

RAZ KIDS READING!

At school we have been practicing reading 3 ways, read to self, read to someone and listen to reading. Raz Kids is a secure online reading program that allows your child to read a book, listen to the book, record/listen to themselves reading and answer comprehension questions. All 3 must be completed for each book in order for your child to move to the next level. This program is a leveled reading program, so if you find it's too challenging or too easy for your child please let me know and I will adjust their level. This is an **optional** reading activity that you can choose to do at home if your child is keen. Students will also be using Raz Kids at school.

The school has purchased a license and you are able to access this website <https://www.raz-kids.com/> with your child's password.

Happy Reading!

Mrs. Briggs
