

## Unit 6 Geometry

### Overview

Through daily activities, your child will explore objects and shapes and the relationships among them.

### Students will be able to:

- Name, describe and sort triangular and rectangular prisms.
- Construct prisms from nets.
- Construct models of prisms.
- Identify, create and sort symmetrical and non-symmetrical shapes.
- Draw lines of symmetry.

### Vocabulary for the unit:

triangular prism, rectangular prism, net, symmetrical and  
line of symmetry
