D. School Trustee Report

Judi Hunter

- Congratulations to Aiden Olfert, a student at Springbank High School, who is invited to participate in the Apple Developers' Conference. Aiden has developed an application that teaches students how to multiply and divide. Use the link below for further details.
 - <http://www.patentlyapple.com/patently-apple/2018/05/a-canadian-teen-developer-from-calgary-thrilled-to-receive-an-invitation-from-apple-to-attend-wwdc-2018.html>.
- June is a very busy time of year, with Provincial Achievement Exams, final field trips and award assemblies. I have the pleasure of attending many of these celebrations and witnessing first-hand the talent and commitment of our students.
- The Board has been busy as well, finalizing a balanced budget for the next school, working to change school boundaries in Airdrie due to population growth, meeting with municipal governments to determine how we can work together to achieve common goals. The most important of which is the building of new schools. The Board has also embarked on the development of the next 4 Year Educational Plan.
- I would like to thank School Council executives and the executives of the "Friends of School Society" for their unselfish contribution of time and energy on behalf of the education of all

students. Schools could simply not fulfill their mandate without the support and involvement of these dedicated parents.

- My ending comment is an “ask” for your assistance. I would like to have open dialogues with school and community members regarding some very real school issues. I believe that school council meetings are the place for that dialogue but perhaps it is school council organizing discussion evenings where we sit together and discuss real issues. I look forward to your suggestions in this regard.
- May each of you have a wonderful summer full of sunshine, family memories and kinship.

 - EFK (Engineering for Kids) is coming into the school June 21st to facilitate STEM workshops for all of our grade 4 classes. They hope to set up after school programming on Friday afternoons in our Maker Space. It would be a third-party use and parents would need to register their children.
- **Professional Learning**
 - As mentioned at our last meeting, we will be seeking funds for a numeracy residency next year for all grades. We have tentatively booked dates and have a quote of \$8,400.
- **Learning Commons**
 - Furniture set to arrive prior to the end of the year.

- **Renovation**

- At this time, all is going according to plan – looks as though we may be back in the office for start-up!

- **Playground Resurfacing**

- New retailer has been out to provide a quote to the district. We will be moving forward with the rubberized surface! Thank you to FEEVES and Jason for raising the necessary funds – the EC will be providing the difference.

5. Volunteer Committee's Report

Amal Jomaa/Arlene Abboud

- The SignUp Genius for Sports Day was recently sent out to parents and there are about 30 volunteers for the day. 30 volunteers should be adequate to support the activities during Sports Day.
